

Transforming construction projects with DocuWare

The challenges in construction document management

Paper overload:

Many construction firms still rely on paper for critical documents.

Lost time:

Document mismanagement and searching for information slows projects and increases costs.

Compliance risks:

OSHA requirements, contracts, and permits demand accurate, accessible records.

Manual paper processes slow down teams and increase risk.

DocuWare and IDP - your digital blueprint

Gain full visibility in construction with a single source of truth

- ✓ Access permits, plans & contracts anywhere, even on the job site
- ✓ Submit, review, and approve documents on the go—no office needed
- ✓ Field & office teams stay aligned with real-time plans and updates on any device
- ✓ Speed up RFIs and approvals with automated workflows
- ✓ Let IDP capture key data from invoices, permits, and reports—no manual entry
- ✓ Auto-sorted documents cut errors and save valuable time

Bring clarity, control & efficiency to your construction operations all in one platform.

Core benefits

Boost productivity & cut costs:

Instantly find documents with powerful search

Stay mobile – access, review, and share documents, trigger workflows, and keep field and office teams aligned, all from your phone or tablet.

Eliminate manual data entry & errors with IDP

Provide teams real-time access to documents and status, so everyone stays updated and miscommunication is reduced.

Save on printing, storage, & couriers by going digital

Core benefits

Stay compliant:

- Full audit trails for transparency
- Automated retention & deletion
- Control access to sensitive docs

Collaborate seamlessly:

- Effortlessly share documents and updates, so your whole team stays in sync from anywhere.
- Always work with the latest versions of requests, quotes, and key files—reducing errors, confusion, and costly mistakes.

Real-world impact

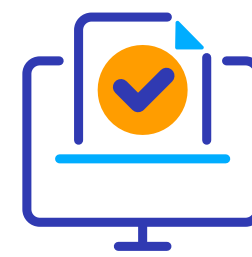

Speed up approvals and processing times

Cut project costs significantly

Find docs in seconds, not days

Lower costs by automating & going paperless

**Zero delays between field and office:
faster decisions, fewer interruptions**

Ready to build smarter?

A growing number of construction firms trust DocuWare and IDP to streamline operations, reduce project expenses, and modernize workflows. With automated, paperless solutions, you'll experience faster processing, less manual work, and instant document retrieval.

“

As McBride and Son's revenue has grown, we have been able to manage this growth without adding staff, because of our investment in DocuWare.”
